4 mills
1-mill
Technology

How it's used.

Preserving 21st century classrooms: Funds for technical support for teachers are used to pay for technology purposes within the schools, including technical support for teachers, maintenance for laptop computers, telecommunications, interactive white boards and other equipment.

2-mills
Capital Projects

Meeting our growing needs: Americans with Disabilities Act compliance, safe sidewalks, new parking lots, updated school communications systems, and emergency repairs.

1-mill
Maintenance & Improvements

Maintaining safe and secure schools: The average building in Jefferson Parish is 53 years old. This money for maintenance and improvements is critical to keep them safe and operational.

YOUR VOTE IS IMPORTANT!

This 4-mill renewal will not increase tax rates. Homeowners with a \$200,000 house will still only pay about \$50 and owners of a \$200,000 commercial property would continue to only pay about \$112.
